

Detailed pavement surface measurement and roadway imaging collection QA3
REQ 706
8/26/2011

Q1) On Form 5100D, there is a section that requests if you are licensed for the state of Michigan. Do we need to be licensed before we submit the proposal or are we able to get licensed afterward?

A1) Please answer this question yes or no and provide explanation/clarification if and why a no answer was provided.

Q2) We are putting together our pricing for the project, does the bid sheet need to be submitted with the original RFP's or do we submit the bid sheet only if we are short-listed?

A2) Bids will only be requested for those short listed vendors that meet 45 out of 60 points of the second round of evaluation, as listed on page 2 of the RFP.
